S'ermíta

at the
Garden of Light

S'ermíta is a reformed 400 year old monastery nestled in the forest of San Miguel with panoramic views, cascades, fountains, fish ponds and three Balinese temples.

It serves as a home for our global family of explorers, change-makers and open minded seekers and is part of the Garden of Light, an unfolding community project known for its magic, music, art, healing, beauty and collaborative nature.

The Garden of Light and our home at S'ermita is inspired by burning man values and we deeply encourage communal effort and civic responsibility as well as self-expression, leave no trace and participation.

The feeling of S'ermita is that of a boutique hotel including five different buildings all beautifully designed to be in harmony with the history of the island yet high end with earthy tones and high quality natural materials.

The decoration is unique and multi-cultural. The main house has a library of 200 collector books on spirituality and consciousness and the 42 000 sqm of land are part of a larger farm project including a perma-culture farm focused on restoring the ancient terraced landscape and regenerating traditional crops as well as efficient water saving solutions.

The sweeping land has abundance of indoor and outside spaces perfect for smaller and larger groups to gather in as well as many pockets for alone time and peace. You are invited to enjoy long sunny days in the abundance of daybeds and chill out areas, dine under the vast pergola, lounge in the spacious living room or work in the co-working space.

The property offers the possibility to float in two pools, one salt water pool and one natural eco-pool. Yoga and exercise can be practiced in the 50 sqm panoramic yoga shala and ultimate relaxation awaits in the jacuzzi and spa area.
